

DonNTU Holds IV All-Russian Student Scientific and Practical Conference with International Participation “Topical Issues of Speech Culture of Future Specialist” Dedicated to 80th Anniversary of Victory in Great Patriotic War of 1941–1945

Photo: DonNTU's Site

On May 15, the DonNTU's Department of the Russian Language held IV All-Russian Student Scientific and Practical Conference with international participation “Topical Issues of Speech Culture of Future Specialist” dedicated to the 80th anniversary of Victory in the Great Patriotic War of 1941–1945.

The participants were postgraduate students, master students and students of all courses and specialties of the leading universities of the Russian Federation, the Republic of Belarus, the People's Republic of China, Kyrgyz Republic, Kazakhstan, Uzbekistan, Turkmenistan, as well as the schoolchildren from lyceums and schools, which research interest is related to the issues of linguistics, culture studies and intercultural communication.

The participants were postgraduate students, master students and students of all courses and specialties of the leading

The DonNTU's Rector Prof. A. Anoprienko, Deputy Dean of the Faculty of Minerals Usage and Earth Science Dr. A. Khokhulya and Head of the Department of the Russian Language Dr. T. Machay gave welcoming speech to the participants.

At the plenary meeting 27 reports in all thematic areas of the conference were heard.

The organizing committee received 90 papers, which will be published in the electron catalogue (with RSI indexing), as well as sent to all participants.

The organization of this event is aimed at preserving historical memory, developing patriotic values and fostering respect for deeds of the previous generations.

DonNTU Hosted XX All-Russian Scientific and Practical Conference “Engineer of Present and Future: Practice and Prospects for Development of Partnership in Higher Technical Education”

On May 21-22, the Donetsk National Technical University held the Jubilee XX All-Russian Scientific and Practical Conference “Engineer of the Present and Future: Practice and Prospects for the Development of Partnership in Higher Technical Education”. The goal of the event is a scientific-information exchange of experience and opinions on topical issues of the higher technical education. The organizers were DonNTU and the Southern Federal University (Sfedu).

Photo: DonNTU's Site

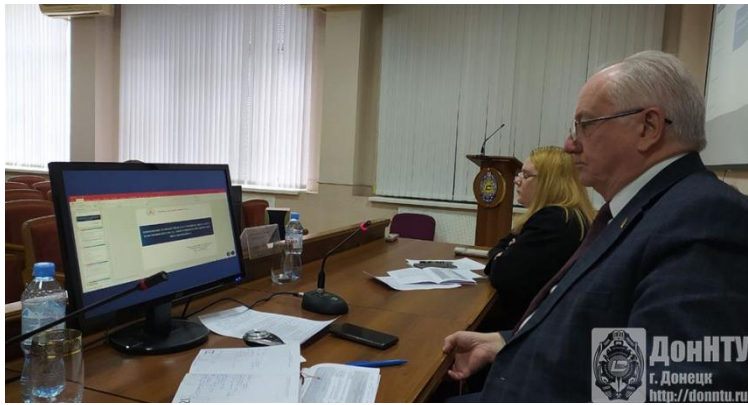

Photo: DonNTU's Site

The conference originates in 2000, when Sfedu and DonNTU held in turn in Taganrog and Donetsk the annual International Scientific and Practical Conference “Practice and Prospects for the Development of Partnership in the Area of Higher Education” (PPDP). Until 2013 this scientific event had been held in the form of seminar, and in 2021 the conference was renamed to “Engineer of the Present and Future: Practice and Prospects for the Development of Partnership in Higher Technical Education”

(PPDP). Since 2023, after the Donetsk People’s Republic had joined the Russian Federation, the event has been conducted as the All-Russian Scientific and Practical Conference “Engineer of the Present and Future: Practice and Prospects for the Development of Partnership in Higher Technical Education” (PPDP).

The co-chairpersons of the organizing committee were the Vice-Rector of strategic development and research activity of Sfedu Dr. Ye. Mukhanov and DonNTU’s Vice-Rector Dr. A. Ryazanov.

The co-chairpersons of the program committee – the DonNTU’s Rector Prof. A. Anoprienko and the Vice-Rector of Educational Activity and Information Technologies of Sfedu Dr. P. Makhno. The scientific secretary of the conference – Associate Professor of the Institute of Radio-Engineering Systems and Management of Sfedu Dr. A. Panychev.

The event was opened by Prof. A. Anoprienko, who emphasized the importance and relevance of the conference, which is being held for the 20th time. The DonNTU’s Rector also noted the expansion of geography of participants and growth of the amount of annually submitted reports, which shows how popular the event is. Welcoming speech was made by Dr. P. Makhno, who also highlighted the significance of the conference for the development of engineering education.

It is worth noting that, in 2023, the organizing committee received 89 reports from the representatives of 12 universities of Russia. In 2024, the conference program included 131 reports from authors of 14 educational organizations. And in 2025, 134 reports were submitted from 28 organizations and universities of the RF, among which: DonNTU, Sfedu, Siberian State University of Science and Technology named after academician M.F. Reshetnev, Grozny State Oil Technical University named after academician M.D. Millionshchikov, Patrice Lumumba Peoples’ Friendship University of Russia, St. Petersburg State University of Communications of Emperor Alexander I, Peter the Great St. Petersburg Polytechnic University, Don State Technical University, Donetsk Physics and Technology Institute named after A.A. Galkin, Almeteyevsk State Technological University “State Oil Institute”, Perm National Research Polytechnic University, Institute for Advanced Training and Professional Retraining of Education Workers of Tula Region, Moscow State Pedagogical University, Donetsk Polytechnic College, I.N. Ulianov Chuvash State University, branch of Peter the Great Military Academy of Strategic Missile Forces in Serpukhov city, Departmental Centre for Combat Training and Use (educational tests) of Troops Electronic Warfare in Tambov region, Tambov State Technical University, State University of Management, Siberian State University of Geosystems and Technologies, Sobolev Institute of Mathematics of Siberian Department of the Russian Academy of Sciences, Surgut State University, Tomsk State University of Control Systems and Radioelectronics, Institute of Scientific and Technical Information, Kuban State University, Volgograd State Socio-

Pedagogical University, Astrakhan State University of Architecture and Construction, Specialized School No. 35 of Donetsk city (DPR).

The plenary session was opened by the Rector of DonNTU Prof. A. Anoprienko with the report “Technological Leadership and Tasks of Engineering Universities: a New Paradigm of Engineering Education”, devoted to the reform of higher engineering education and challenges facing technical universities of the RF.

Dr. A. Nepomnyashchiy, Professor of the Department of Psychology and Life Safety of the Institute of Computer Technologies and Information Security of Sfedu, continued the plenary session with a report “Philosophy of Engineering: Back to the Future”.

Within the framework of the conference, the work of four sections was carried out. The sessions were chaired by the Associate Professors of DonNTU – Prof. A. Koroshchenko, PhD in Engineering, and Prof. A. Bulgakov PhD in Engineering.

One of the directions of the conference “Research and Development of Engineers of the Future” is gaining popularity. Within its framework, the projects were presented by the bachelor and master students of DonNTU, Sfedu and other universities of the Russian Federation.

On May 22, the final event was held in both online and in person format. It covered thematic discussions, talks on the submitted projects, ideas, proposals. The outcomes of the conference will be published, and the best papers will be recommended for publication in the Sfedu Collection.

DonNTU Opened XI International Scientific Forum of DPR “Innovative Prospects of Donbass: Infrastructural and Socio-Economic Development”

On May 27, the XI International Scientific Forum of the DPR “Innovative Prospects of Donbass: Infrastructural and Socio-Economic Development” started its work on the basis of the Donetsk National Technical University. The forum was opened by the exhibition of scientific and technical developments within the framework of the III All-Russian VOIR festival “Science and Inventions for Life”, which for the first time in the last five years was held in a face-to-face

Photo: DonNTU's Site

format in the museum of history of DonNTU. Students, postgraduates and schoolchildren of the DPR studying in engineering classes organized by Donetsk Polytechnic in one hundred schools of the Republic, including Mariupol schools, presented their achievements. These developments and projects can be widely used in production, in different industries and everyday life; some robotised stands made by the DonNTU representatives were exhibited at VDNKh. The guests of the exhibition were welcomed by the Rector of the university, Prof. A. Anoprienko, and the first Ministers of Education and Science of the DPR, Mr. Igor Kostenok and Mr. Mikhail Kushakov. For the honored guests, the Vice-Rector Prof. A. Fyodorov conducted a tour of the modernized laboratories of the university. The exhibition was a kind of the result of successful and fruitful work of young inventors and their mentors.

Photo: DonNTU's Site

The forum was continued with a plenary session in the small hall of the Academic Council of DonNTU. It was attended by Mr. V. Yozhikov, Deputy Chairman of the Government of the Donetsk People's Republic; Prof. S. Beshpalova, Rector of DonSU, Chairman of the Council of Rectors of Educational Organization of the DPR Higher Education, Head of the Representation of RAS in the DPR; Mrs. Asya Gorshkova, Chairman of the Regional

Organization of the Trade Union of Workers of National Education and Science of the Russian Federation in the DPR; the representatives of higher and secondary educational institutions of the LDPR and Greater Russia, industrialists and industrial partners of DonNTU.

The event was opened by Prof. A. Anoprienko, who read out welcoming addresses with warm wishes from Mr. Denis Pushilin, the Head of the DPR, and Mr. K. Kuzmin, Chairman of the People's Council of the DPR.

Mr. V. Yozhikov, who supervises several line ministries, in his speech noted the extremely important role of universities in the development of science in the Russian Federation. He paid attention to such problem areas as: improvement of a scientific base to strengthen technological sovereignty in order to timely respond to the challenges of time; design of applied solutions, based on the best international practices, for the effective development of Donbass and bringing it to the leading position; comprehensiveness of approaches to the development of the DPR and improving the living standards of its citizens. He also emphasized that the key point remains the formation of staff capacity against the backdrop of its deficit.

According to Mr. Igor Kostenok, the deputy of the People's Council of the DPR, within the walls of DonNTU, the scientific schools are born and developing, as well as new type of personalities is formed, which are called to return the former glory of Donbass. He noted that modern engineers should be ready to work in the new, constantly changing realities and build the future we all would like to live in.

Mr. Mikhail Kushakov, the Advisor to the Head of the DPR, reminded that DonNTU was internationally renowned under the "brand" of DPI and continues to be the flagship of engineering education in Donbass. The Republic is still proud of the professionalism of its teaching staff and the success of its students. He stressed that the general task set by the state leadership is the development of science, without which the industrialization of the region is impossible, and Donbass was and remains the industrial heart of Russia.

Photo: DonNTU's Site

The Rector of DonSTU (Alchevsk) Prof. D. Vishnevskiy said that the general responsible mission of the teachers of technical universities was to instill in students the love for engineering

education and to create all conditions for them to stay to work at the enterprises of their native region in positions of different levels, including managerial positions.

According to the Rector of DonNTU, an agreement with Kazan National Research Technical University named after A.N. Tupolev (KNRTU) was signed before the opening of the forum. Its Vice-Rector Prof. R. Moiseev, on behalf of Prof. K. Okhotkin, Acting Rector of KNRTU-KAI, conveyed greetings and a wish that this agreement would contribute to the development of networking cooperation, establishment of close ties between technical education and industry. He also expressed his hope that the next year KNRTU-KAI would present its achievements to the forum of the DPR.

The forum participants were welcomed by Prof. M. Rudakov, the Vice-Rector for Special Programs of St. Petersburg Mining University of Empress Catherine II, who took the floor via videoconference on behalf of the Rector of SPMU Prof. V. Litvinenko and the entire university. He said that the two universities had a long and fruitful cooperation, and also dwelt in detail on the important aspects of reforming higher technical education in Russia, developed at the Mining University. Among the key ones are the formation of a mentoring institute, an increase in the duration of industrial practice (up to 50 weeks), during which students will be trained in working professions close to their specialties, and modernization of the educational policy.

The participants were also welcomed by Mrs. Asya Gorshkova and Prof. L. Polyakova, Head of the Department of Mineral Resources Use, Construction and Management of Ukhta State Technical University (Minister of Education and Science of the DPR in 2015-2018).

Before the plenary speeches, Prof. A. Anoprienko reminded that 2025 had been declared the Year of the Defender of the Fatherland and named only some Donetsk polytechnics - heroes of the Great Patriotic War and special military operation - as their full list is very long.

The plenary reports were delivered in online and in person format by the Rector of DonNTU Prof. A. Anoprienko, the Rector of DonSU Prof. S. Bespalova, the Rector of USTU Prof. R. Aginei, the Vice-Rector for Science and Innovations of D. Mendeleev University of Chemical Technology of Russia Prof. Ye. Khaidukov (co-reporter – Acting Head of the Department of Inorganic and Electrochemical Processes of MUCT Prof. A. Kolesnikov), the Rector of the Institute of Digital Economy Prof. R. Makarov, the Director General of SUE “Donbassteploenergo” Mr. Sergey Polkhov.

Within the framework of the forum, the breakout sessions, 70 events, as well as the traditional summarizing of the results will be held in the Donetsk Botanical Garden.

DonNTU Signed Cooperation Agreement with KNRTU-KAI named after A.N. Tupolev

Photo: DonNTU's Site

On May 27, the Vice-Rector for Educational Activities of Kazan National Research Technical University named after A.N. Tupolev-KAI Prof. R. Moiseev visited Donetsk National Technical University. KNRTU-KAI is a recognised research complex that trains personnel for knowledge-intensive industries. The university develops additive technologies, widely uses individual educational trajectories, and strengthens ties

between production, science and education.

As part of the development of scientific and educational cooperation, an agreement was signed between Donetsk National Technical University and Kazan National Research Technical University named after A.N. Tupolev-KAI. The agreement provides for the implementation of

network training, joint scientific research, as well as the development of innovative projects and technologies. This step confirms the DonNTU's course focusing on the development of high-tech areas, training in-demand specialists, as well as expanding and strengthening partnership ties with leading Russian universities.

DonNTU Held II All-Russian Scientific and Practical Conference of Young Scientists and Students “Metallurgy of XXI Century through Eyes of Youth”

The II All-Russian Scientific and Practical Conference of Young Scientists and Students “Metallurgy of the XXI Century Through the Eyes of the Youth” was held at the Donetsk National Technical University on May 28. The organizing committee received 55 reports from 7 educational institutions: Donetsk National Technical University – 46; Donbass State Technical University (Alchevsk) – 3; Peter the Great St. Petersburg Polytechnic University – 2; St. Petersburg Mining University of Empress Catherine II – 1; Moscow Polytechnic University – 1; Priazov State Technical University (Mariupol) – 1; Almeteyvsk State Technological University – 1.

Photo: DonNTU's Site

The program of the reports was placed on the website of DonNTU in the electronic database, as well as on the conference website.

The collection of materials presents the results of scientific research and technical developments in the field of modern metallurgical and foundry technologies, metal forming, materials science, metal science and heat treatment of metals. The issues of energy-saving technologies, ecology and labour protection in metallurgy are considered. The materials are of interest to the students, postgraduates, scientific and engineering workers of a metallurgical profile.

DonNTU Hosted XI All-Russian Scientific and Methodological Conference with International Participation “Postcapitalism: Being and Time”

Photo: DonNTU's Site

The XI All-Russian Scientific and Methodological Conference with International Participation “Postcapitalism: Being and Time” was held at the Donetsk National Technical University on April 25. It was organised by the Department of Philosophy of DonNTU, the Department of Legal and Political Sciences of DonNUET named after M. Tugan-Baranovsky, the Department of History, Philosophy and Culture of VSU (Voronezh).

The conference, held in the format of face-to-face and remote participation on the platform of M. Tugan-Baranovsky DonNUET, was devoted to the comprehension of contradictions and regularities of the development of modern society, which is experiencing the epoch of late capitalism.

The event was attended by a total of 33 people: from the DPR – 21 representatives of DonNTU, DonNUET, DonNU, DonSMU, DAMSS (the Donetsk

Academy of Management and State Service), as well as 7 – from the universities of St. Petersburg, Voronezh and Volgograd, 5 – from the Federal Republic of Germany (Bonn, Leipzig, Frankfurt-on-Main, Wuppertal) and Venezuela (Caracas).

The greetings were delivered by Dr. T. Ragozina, the Head of the Department of Philosophy of DonNTU; Associate Professor Ye. Odintsova, PhD of Law and Philosophy, Head of the Department of Legal and Political Sciences of DonNUET, and Dr. Renata Koppe, Doctor of History, International Department of the German Communist Party, *Unsere Zeit* newspaper (Bonn, Germany). The collection of scientific papers of the conference “Postcapitalism: Being and Time” was presented by Dr. T. Ragozina.

Plenary reports were delivered by Dr. T. Ragozina (“Capitalism Before the Court of History”), Dr. Renata Koppe (“Lenin’s Theses on Imperialism and Colonialism and Their Significance for the Analysis of Neo-colonialism”), Associate Professor of DonNUET, Ph.D. in History G. Mishechkin, (“Immanuel Wallerstein on Lenin and Leninism”), Ph.D. in Philosophy A. Gizha, Associate Professor of the Department of Philosophy of DonNTU (“Louis Althusser about V.I. Lenin as a Theoretically Thinking Politician”), Ph.D. in Philosophy A. Armen, Associate Professor of the Department of Philosophy of DonNTU (“Fascism as the Reverse Side of Capitalism”). Alexander Hüser, a postgraduate student of the Faculty of Slavic Studies at the University of Leipzig, delivered the report “Lenin’s Contribution to National Sovereignty against Bourgeois Nationalism” via video link.

The video of Ph.D. in Philosophy Prof. N. Pryakhin, Associate Professor of the Department of Media Communications and Advertising of the St. Petersburg University of Management Technologies and Economics, dedicated to the memorial places of the revolutionary events of October 1917 in St. Petersburg (Petrograd) was also demonstrated.

The relevance of the issues that aroused the keen interest of the conference participants is due to the urgent need to comprehend the role of objective and subjective factors that determine the direction of historical dynamics at the present stage of society’s development.

DonNTU Representatives – Participants of XXVI International Scientific and Practical Conference on Mining and Explosive Engineering

The XXVI International Scientific and Practical Conference on Mining and Explosive Engineering was held in Novosibirsk on May 19-23. It was organised by ANO “National Organisation of Explosive Engineers in Support of Professional Development” (ANO NOEE) and LLC “EXPERT CENTRE” together with the the Scientific Council of RAS on the problems of national economic use of explosion, coorganised by Rostekhnadzor of the Russian Federation.

Photo: DonNTU’s Site

The purpose of the event is to discuss a wide range of the issues related to mining and blasting operations, including the Arctic zone; supply of initiation means and ammonium nitrate; exchange of scientific and technical information; identification of promising areas for the creation and development of new equipment and IT-technologies, taking into account the reduction of seismic, dust and gas and environmental load on protected objects; development of joint scientific programs, methods of non-destructive testing in the conditions of sanctions pressure, import substitution and ensuring full sovereignty.

Photo: DonNTU's Site

The conference was attended by the representatives of Rostekhnadzor, Rostekh, Roscosmos, major mining companies, associations and organizations producing and supplying explosives, intermediate detonators, initiation means and ammonium nitrate; the representatives of the state mining supervisors of the Customs Union countries, leading Russian and foreign firms and laboratories involved in the circulation of explosive materials and environmental control, renowned scientists from mining, physics

and chemical engineering universities and academic institutes of the Russian Academy of Science.

Donetsk National Technical University was represented by the personnel of the Department for the Construction of Buildings, Underground Structures and Geomechanics – Prof. S. Borshchevsky, the Vice-Rector for Research, Head of the Department, Dr. of Engineering, Prof. S. Kalyakin, Dr. of Engineering; Associate Professor I. Kupenko, Ph.D. in Engineering and Assistant N. Barsuk, who made a report “On the Issue of Improving the Safety of Blasting Operations in Gas- and Dust-hazardous Coalmines”. In the first part of the report Prof. S. Borshchevsky told about the history and prospects of DonNTU development, thanked the organizers and sponsors of the conference (the general sponsor – “Spetsvmtech” LLC) and invited those present to cooperate with the university. Then, the assistant N. Barsuk got acquainted the participants with a new method of estimation of safety properties of explosives, gave the results of research on the character of atomization of experimental compositions of inhibitor powders by explosion of smokeless powder charge in the mortar channel. These studies were carried out with the financial support of the Ministry of Science and Higher Education of the Russian Federation within the framework of the state assignment. In total, about 30 papers were presented at the conference.

The participants were welcomed by Mr. Vadim Tkachenko, Head of the Administration of Mining Supervision of Rostekhnadzor; Prof. G. Kocharyan, Doctor of Physical and Mathematical Sciences, Deputy of IDG RAS, Head of the Scientific Council of RAS on the problems of national economic use of explosion; and Mr. Vladimir Arkov, the General Director of SPETSVMTECH LLC.

The conference included a plenary session and a breakout session work.

The participants also had a tour to JSC Novosibirsk Mechanical Plant “Iskra”, where they learnt in detail about the manufacturing technologies and parameters of the products manufactured, testing of initiators at the firing range. There was a debate club, where topical issues of blasting work and production of initiation means were discussed.

The separate program of workshops and professional development courses addressed the issues of:

- import substitution in the mining and blasting complex of the country;
- new federal standards and rules on blasting works and TRs of the Customs Union;
- means of initiation of explosive charges in modern conditions;
- peculiarities of application of explosive charges in different mining and geological conditions;
- issues of safe production and handling of nuclear plants;
- training of personnel for mining and blasting;
- ecological impact of explosions on the environment.

Once again the representatives of DonNTU emphasized the genuine interest to the report, warm reception of the conference organizers and participants, as well as the highest level of the event organization

DonNTU Signed New Cooperation Agreement

Donetsk National Technical University expands its partner network by signing a new co-operation agreement with the State Foundation “Defenders of the Fatherland”. The main goal of the Foundation is to provide personal social support to veterans of the Special Military Operation (SMO) and families of fallen soldiers.

The Foundation provides assistance in obtaining all the necessary support measures, including medical and social rehabilitation, drug provision, psychological support, provision of technical rehabilitation equipment (TRE) and sanatorium-resort treatment, as well as assistance in retraining and employment of veterans.

Specially trained social coordinators work with veterans of the SMO and families of fallen soldiers in the regions.

This agreement is an important step in supporting those who defend our Motherland.

Photo: Internet Source

DonNTU Scholars – Participants of Round Table “Directions for Development of Industry in Donetsk People’s Republic”

Photo: DonNTU’s Site

On May 20, the Institute of Economic Research held a round table “Directions for the Development of Industry in the Donetsk People’s Republic”, organised by the Department of Economic Systems Modelling. The participants of the event were representatives of the state authorities, the Ministry of Industry and Trade of the Donetsk People’s Republic, the Foundation for the Development of Industry of the DPR, the Donetsk Regional Branch of the Union of Machine Builders of Russia, and scientists from the universities of the Russian Federation.

Within the round table, the problems, systemic limitations and main directions of the Republic’s industrial development, as well as the issues of restoring the industrial potential and preserving the industrial heritage of the DPR were discussed. As noted by Mr. Viktor Nikolayenko, Chairman of the People’s Council Committee on Industry and Trade, this meeting was another stage of work on the strategy for the long-term development of Donbass industry.

Donetsk National Technical University was represented by Prof. I. Kochura, Doctor of Economics, Professor of the Department of Business and Personnel Management, who made a report “Directions for the Development of Industrial Territories of the DPR on the Basis of Post-mining and Synchro-mining Business Projects” and Prof. Ya. Khomenko, Doctor of Economics, Professor of the Department of Economic Theory and Public Administration.

In his speech, Mr. Roman Lepa, Head of the Department for Economic Systems Modeling at the Institute of Economic Research, recalled the poster “Donbass is the heart of Russia”, which was popular at the beginning of the last century. This statement was a leitmotif through the whole event. We hope that there is every reason to bring back this proud slogan now.

As a result of the round table, proposals will be prepared on a number of problematic issues.

DonNTU Students as Part of CyberDonbass Team of DPR – Participants of Grand-Finale of VII All-Russian Competition “Cyberdrome”

From September 2024 to April 2025, three students of the Faculty of Intelligent Systems and Programming of DonNTU took part in the competition of completed design and engineering solutions in the competition mode “Cyberdrome 24/25”. The grand-finale of the VII All-Russian Cyberdrome competition was traditionally held on April 21-23 in Moscow Rudnevo Industrial Park. The event is held on the initiative of the Ministry of

Photo: DonNTU's Site

Industry and Trade of the Russian Federation not for the first year. More than 7 thousand people from 78 regions of Russia have registered on the Cyberdrome educational platform. The Donetsk People's Republic is participating in the project for the first time (including from new subjects).

Following the results of the competitions, the DPR CyberDonbass team took the 8th place. Within the framework of the contest, the students of the Faculty of Intelligent Systems and Programming Daniil Kiselyov, Roman Shchepak and Maksim Slipenko completed the first educational module “The Development of Basic Competences”. Among its key areas were legislation in the field of UAS (unmanned aircraft system), UAS design and construction, basics of UAS control, basics of programming, digital literacy and cyber security, basics of project activities.

Donetsk polytechnics received certificates from the All-Russian Cyberdrome project for completing the educational course within the comprehensive exam, which consisted of theoretical and practical parts. In addition, for the excellent results in the exam, the students Daniil Kiselyov and Maksim Slipenko received state-issued certificates of acquired profession of a worker, in the position of an officer “Operator of unmanned aircraft systems (with a maximum take-off weight of 30 kilograms or less)” from Orel State University named after I.S. Turgenev.

The results of the participation of the regional CyberDonbass team in the grand-finale:

- the best indicator in the stage “Drone-Sim” (the best time and the scored points);
- diploma of III degree in the competition of engineering projects “Modeling the Future” (the project is defended and all tasks of the practical part of the competition are fulfilled);
- the 8th place in the overall standings of the strongest teams of Russia.

Hyper-IST Team of DonNTU – Winner of Russia Cup on Product Programming

Three teams from the Donetsk People's Republic made it to the final of the Cup of Russia-2025 in sports programming, which took place on May 19-21 in Smolensk.

The discipline “Product Programming” was represented by two teams from Donetsk National Technical University – Hyper-IST and “Code 418”, and the discipline “Programming of

Photo: DonNTU's Site

Information Security Systems” was represented by the team DONBASS LEGEND from Donetsk State University.

Hyper-IST team made it to the final of the Russian Cup as the winner of the New Regions Cup, which was held in April on the basis of DonNTU.

In Smolensk the students confirmed their skill level and became the winners of the Cup of Russia on product programming!

We congratulate the champions and wish them new achievements in studies and sports!

DonNTU's Student Participated in Internship in St. Petersburg

On May 11-17, St. Petersburg hosted an internship for the best participants of the educational projects “KOD” and “PUZZLE-Programming” of the Foundation for support of talented youth “The Future Leaders”. More than 50 finalists from all over Russia gathered in St. Petersburg not only to immerse themselves in the world of information technologies, but also to present their own projects at the annual hackathon. The student of the Faculty of Intelligent Systems and Programming of DonNTU Olesya Nikulina (group PI-24b), also took part in the hackathon.

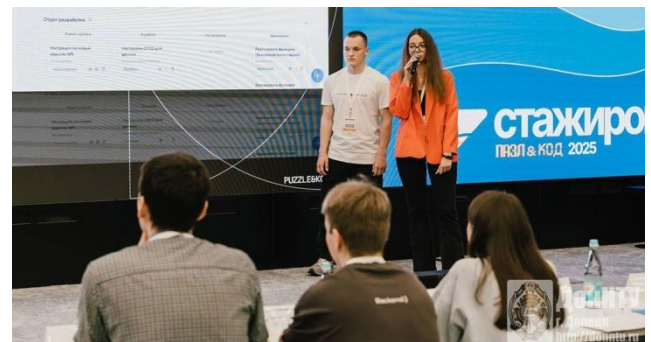

Photo: DonNTU's Site

The internship program was intense and varied. The participants visited the leading companies of the city: Axenix, Nordklan and Melon Fashion Group, where they could see the real work of technology teams. In addition to the technical part, the program included soft skills training, team-building activities, lectures and intellectual games. The students also learnt about the rich history and culture of St. Petersburg.

As part of the internship, the finalists worked on their projects in teams with the support of mentors. The event ended with the defense of their projects at a hackathon, which took place on May 16 at the platform of Sberbank's Technology Block. All teams showed a high level of training, originality and depth of ideas.

Student of Faculty of Engineering and Economics – Winner of All-Russian Student Festival of Social Advertising “Responsible Generation”

On the basis of the Department of Marketing and Trade Business of the Donetsk National University of Economics and Trade named after M. Tugan-Baranovsky, the All-Russian Student Festival of Social Advertising dedicated to the Year of Defender of the Fatherland took place on April 22. This is not just a tribute to tradition, but an opportunity to reflect on the history of our country, to honour the exploits of those who stood for defence of the Motherland, and to think about what means to be a patriot in the modern world.

The students of universities and institutions of secondary vocational education were offered to develop various advertising materials of social topics (print and outdoor advertising, video advertising/cartoons, project of a complex social advertising campaign) in the following nominations:

Photo: DonNTU's Site

1. “We have something to be thankful for”: the anniversary of the Victory in the Great Patriotic War; patriotic education (military actions, heroic battles, the fight against fascism, people’s memory); hometown commercial.

2. “Defenders of Donbass”: heroes of Donbass; fighters of the SMO and significant dates; memorable places (Angels Alley, Eternal Flame, Donbass Liberation Park, Saur-Mogila, etc.); youth and youth movements.

3. “To be healthy is Great!”: healthy lifestyle (fight against bad habits, AIDS and other diseases of

the XXI century; physical education, sports hobbies); road safety; be independent (computer addiction: gadgets, Internet, social networks; machines will not replace humans, robots); digital technologies and innovations: benefits and harms.

4. “Good in the Heart”: social assistance and charity, donation; children and family; help and kindness (sponsorship, charity, etc.); ecology and environmental protection.

The following educational organizations sent 136 works to the Advertising Festival: Donetsk National University of Economics and Trade named after Mikhail Tugan-Baranovsky, Donetsk State University, Donetsk National Technical University, Bryansk branch of Plekhanov Russian University of Economics, V. Dahl Lugansk State University, Vyatka State Agrotechnological University, North Caucasus Federal University, Tula State University, Shakhtyorsk Technical School of Service, Donetsk Industrial Automation College named after A.V. Zakharchenko, Khartsyzsk Multiprofile Technical School, Makeevka Technical School of Service and Trade.

The finalists were 34 works, which were presented by the authors online in Telegram.

DonNTU student Anastasia Krylova (gr. VEDPP-22, FEE) presented a social advert in the nomination “Good in the Heart”, dedicating it to the problems of environmental protection in the city. In her work, she not only demonstrated a responsible attitude to environmental protection, knowledge of the principles of graphic design, but also did it in an original form, with clear practical recommendations, love for her native city, for which she was awarded the diploma of the I degree in this nomination!

DonNTU Student – Prize Winner of

IV All-Russian Student Olympiad on Information Security

Denis Yaremko (group TKS_m-24), a student of the Faculty of Computer Information Technologies and Automation of Donetsk National Technical University, made it to the final of the IV All-Russian Student Olympiad on Information Security, which took place on May 14-18 at the Production and Training Centre “Zaluchye” of Gubkin Russian State University of Oil and Gas, ranked third and taken the II place in the nomination from the company STC “Vulkan”.

Photo: DonNTU's Site

The event is part of the federal project “Information Security” of the national program “Digital Economy of the Russian Federation”, and its key organizers are the Moscow Technical University of Communications and Informatics, the Federal Educational and Methodological Association in the field of higher education in the UGSN 10.00.00 “Information Security” and Gubkin University.

The Olympiad is aimed at identifying and developing intellectual and creative abilities of students of major courses, stimulating their interest in research and development activities and forming the country’s personnel reserve in the field of information security.

DonNTU Team – Prize Winner of International Youth Robotics Competition “RTC Cup Higher League: National Research University Higher School of Economics”

On May 24-25, Moscow hosted the International Youth Robotics Competition “RTC Cup Higher League: National Research University Higher School of Economics”, which included two hackathons: “Drug Delivery” and “City Driving”. Organised by the State Scientific Centre of the Russian Federation “Central Research and Development Institute of Robotics and Technical Cybernetics” (CRDI RTC). The RTC Cup is a robotics competition for young engineers, students and schoolchildren who create robotic complexes to work in extreme conditions.

Photo: DonNTU's Site

The DonRover team of Donetsk National Technical University took the third place in the overall standings of the competition and the second place - in the team standings of the hackathon “Drug Delivery”.

DonNTU Students as Part of National Team “CyberDonbass” – Finalists of All-Russian Competition “Specialists for Digital Industry”

Photo: DonNTU's Site

On April 29, the Ministry of Industry and Trade of the Donetsk People’s Republic hosted an award ceremony for the national team “CyberDonbass”, which presented its design and engineering solutions at the All-Russian competition “Specialists for Digital Industry” organised by the National Association of Manufacturers of General

Purpose Aviation Equipment. Based on the results of successful performances in online formats, the CyberDonbass team advanced to the grand-finale of the competition, which took place in Moscow on April 20-23. As a result, the DPR team took the 8th place out of 500 teams from all over Russia.

The CyberDonbass team included DonNTU students: Daniil Kiselyov (gr. PIm-24), Roman Shchepak (gr. PIm-24), Andrey Kozlov (gr. SURK-21), Maxim Slipenko (gr. PIm-24) and Boris Kalinichenko (gr. SURK-21).

We congratulate the participants and their teachers with a successful performance and wish them further victories!

Warm Greetings from Partner Universities to May 1

May Day is a holiday associated with the theme of labour, celebrated under different names in many states and territories on May 1 or on the first Monday of May.

On the eve of the Holiday of Spring and Labour, Donetsk National Technical University received kind greetings from its long-time partners – leading universities of Russia.

The University personnel thanks to the partners for their warm words and is sure that joint work will continue to bring worthy results!

Dear friends, honored colleagues!

I cordially congratulate you on the 1st of May! A holiday that unites all generations and carries a powerful charge of positivity and creative energy of labour!

For modern Russians, this holiday symbolizes respect for labour. This is the foundation, on which the success and prosperity of our country are built. Thanks to this, we always overcome difficulties and come out victors.

And today we honour the man of labour, whose successes and contribution to science and education, industry, culture and art, is highly appreciated by our great country. Special words of gratitude to our dear veterans!

On this sunny spring day, I wish you vigor, faith in your strength and success in all your endeavours!

Yours faithfully and thankfully,

acting Rector of D. Mendeleev University of Chemical Technology of Russia Yevgeniy Rumyantsev

Дорогие коллеги!

Сердечно поздравляю вас с Международным днем весны и труда — Первым мая! Этот праздник символизирует единство и борьбу трудящихся за свои права, а также отмечает приход весны, времени надежд. Первомай — это не только время обновления природы, но и возможность выразить свою признательность всем тем, кто своим трудом способствует развитию нашего общества. Дорогие преподаватели и студенты, мы ценим вашу преданность, энергию и стремление к знаниям, которые вы приносите в наш вуз. Вместе мы создаем атмосферу, способствующую комфортному обучению, ярким научным достижениям и личностному росту.

В этот прекрасный день желаю вам здоровья, счастья и новых творческих успехов. Пусть ваша работа приносит радость и удовлетворение, а каждый день будет наполнен вдохновением и позитивными событиями. Давайте вместе строить будущее, полные ярких перспектив. Пусть в ваших сердцах царит мир и согласие, а трудовые достижения вдохновляют на новые свершения. Всем — оптимизма, крепкого здоровья, энергии для реализации задуманных проектов и успешных моментов в личной и профессиональной жизни!

Ректор ЮрГПУ

В.А. Зернов

Уважаемые коллеги!

Поздравляю вас с 1 мая - Днём Весны и Труда и наступающим праздником 80-летия Великой Победы!

Это праздники всех, кто понимает великую значимость труда, кто своей работой преумножает благосостояние России, кто ратует за единство и сплочённость всех созидательных сил во имя устойчивого и динамичного развития нашей Родины!

Вот уже 80 лет 9 Мая для жителей нашей страны – это грандиозная дата, символизирующая мощь государства, духовную силу российского народа, его исключительные качества – отвагу и самопожертвование, беззаветную любовь к Отечеству и готовность отстаивать его независимость не щадя жизни.

У Дня Победы есть свои неизменные традиции: мы с особым чувством чествуем ветеранов, возлагаем цветы к памятным местам, храня благодарную память о тех, кто пожертвовал жизнью, защищая родную страну. Мы передаём эту святую для каждого жителя нашего государства память детям в надежде, что и они, в свою очередь, станут проводниками народной памяти.

Желаю вам крепкого здоровья, мирного неба над головой, семейного благополучия, а нашей великой Отчизне – независимости, мощи и процветания!

DonNTU's Congratulation on Victory Day

Victory Day is a holiday of the Red Army and Soviet people victory over Nazi Germany in the Great Patriotic War of 1941-1945. It was established by the Decree of the Presidium of the Supreme Soviet of the USSR of 8 May 1945 and is celebrated annually on May 9.

In 1945-1947 Donetsk National Technical University received touching congratulations from partner universities on the occasion of the 80th anniversary of the Great Victory.

In official letters, representatives of the Russian universities emphasized:

- the importance of preserving the historical memory of the feat of the Soviet people
- respect for the contribution of Donbas to the Great Victory
- the value of peaceful development through strengthening scientific cooperation

The administration of DonNTU noted that such congratulations strengthen inter-university ties and confirm the entity of values.

Уважаемый Александр Яковлевич!

Примите искренние поздравления с великим праздником — Днём Победы!

*Этот праздник стал символом героизма нашего народа,
его несгибаемой стойкости и несокрушимости духа!*

Это день памяти павшим, и награда живым.

*От всей души поздравляю и желаю крепкого здоровья Вам и Вашим близким,
а всем нам — мира, благополучия и возрождения великой России,
за которую отдали жизни наши отцы и деды.*

Ректор ТГУИЭ, д-р экон. наук, профессор

С.Ю. Аваков

Уважаемые коллеги, друзья!

Поздравляю Вас с праздником
Великой Победы!

В этом году он отмечен особенной датой – 80-летием Победы советского народа над фашизмом. Мы, благодарные потомки поколения победителей, продолжаем бережно хранить память о них и защищать мир, который достался нашей стране такой ценой. Великий подвиг советского народа, его мужество, единство, достоинство и сила духа всегда будут вдохновлять нас!

Желаю вам крепкого здоровья, счастья, мира и благополучия. Пусть каждый день напоминает вам о том, как важно беречь мир и свободу, за которые боролось старшее поколение!

С ПРАЗДНИКОМ ВЕЛИКОЙ ПОБЕДЫ!

С уважением, ректор ЛГТУ
Л.А. Загеева

Уважаемые коллеги, дорогие друзья!

80 лет отделяет нас от того легендарного мая, когда весь мир услышал долгожданное слово **"Победа!"**

Этот священный праздник - наша общая память о беспримерном подвиге народа.

Особые слова благодарности - горнякам-фронтовикам, которые, сменив отбойный молоток на винтовку, стояли насмерть под Москвой и Сталинградом, а те, кто оставался в забоях, сутками не поднимались на поверхность, обеспечивая страну углём и рудой для Победы.

Желаю Вам крепкого здоровья, мира и благополучия! Пусть подвиг наших героев всегда будет для нас нравственным ориентиром!

ДОРОГИЕ ДРУЗЬЯ, КОЛЛЕГИ!

Поздравляю вас с праздником – 80-летием Великой Победы! В этот священный день мы вспоминаем тех, кто отдал свои жизни за нашу свободу и будущее. Это время, когда мы чтим героев, проявивших невероятное мужество и стойкость как на фронте, так и в тылу.

Особо важно помнить подвиг геологов во время Великой Отечественной войны, который стал значимой частью нашей истории. Их самоотверженность и труд помогли приблизить победу, и мы гордимся их вкладом в защиту Родины. Эти подвиги навсегда останутся в наших сердцах, вдохновляя нас на великие свершения ради процветания нашей Отчизны.

С Днём Победы!

Ю.П. Панов
Ректор Российского государственного геологоразведочного университета имени Серго Орджоникидзе (МГРИ)

Dear friends, honored colleagues!

In two days we will celebrate the most important holiday for our country. 80 years ago our soldiers, officers, guerrillas defeated the fascist invaders and returned us to the peaceful life.

The Great Patriotic War left dead almost 27 million people. Economy, industry, science infrastructure - everything was destroyed. But we have been able not only to protect, but also to rebuild our country by making it the world's leading country.

We, the descendants of great heroes, thank all those who fought on the front, who stood day and night at the machines or worked in the fields, who drove trains or fought for the lives of the wounded in hospitals. The feat of the Soviet people will forever remain a moral landmark for the younger generation and will inspire us all in good deeds.

Congratulations on the Great Victory Day, dear friends!

Yours faithfully,

acting Rector of D. Mendeleev University of Chemical Technology of Russia Yevgeniy Rummyantsev

С Днём Победы!

В этот светлый и памятный день от имени всего коллектива Севастопольского государственного университета я сердечно поздравляю Вас с 80-летием Победы в Великой Отечественной войне!

Этот праздник навсегда останется в истории человечества как свидетельство непревзойденного героизма, стойкости и единства нашего народа.

80 лет назад наши отцы, деды и прадеды совершили величайший подвиг и подарили всему Миру - мир и свободу. Их мужество, стойкость и вера в Победу стали примером истинного патриотизма и любви к Родине для всех последующих поколений.

**Пусть этот праздничный день принесет вам радость, а ваши сердца будут наполнены гордостью за совершенный подвиг!
Желаю вам крепкого здоровья и благополучия!**

Ректор Севастопольского государственного университета
В.Д. Нечаев

Глубокоуважаемый Александр Яковлевич!

От имени коллектива Чувашского государственного университета и от себя лично поздравляю Вас с 80-летием Великой Победы!

9 Мая – светлый и торжественный праздник – золотыми буквами вписан в историю человечества. Священный подвиг, стойкость и любовь к Отчизне поколения победителей являются ярким символом негибаемой воли, патриотизма и духовного величия нашего народа. Участники Великой Отечественной войны 1941-1945 годов всегда будут истинным примером героизма и беззаветного служения Родине, высоким нравственным ориентиром для грядущих поколений.

Примите искренние пожелания крепкого здоровья, счастья, благополучия Вам и Вашим близким!

9 МАЯ
С ДНЕМ ПОБЕДЫ!

Уважаемый Александр Яковлевич!

В этом году мы отмечаем 80-летие Великой Победы — подвига, который навсегда останется в нашей истории и в сердцах каждого из нас.

Меняются эпохи, преобразуется мир, но память о мужестве и героизме нашего народа не меркнет с годами. Она живет в семейных историях, в фотографиях фронтовиков, в рассказах о тех, кто сражался за мирное небо над нашей головой.

Сегодня мы с благодарностью склоняем головы перед их стойкостью, самоотверженностью и несгибаемой волей. И наш общий долг — не только хранить эту память, но и передавать ее новым поколениям. Ведь без прошлого нет будущего, а без уважения к подвигу предков — нет достойного пути вперед.

Пусть светлая память о тех, кто отдал жизнь за нашу свободу, вдохновляет нас на дела, которыми можно гордиться. Пусть их мужество напоминает нам о ценности мира, а их жертва учит нас беречь то, что было завоевано такой высокой ценой.

От всей души желаю Вам и Вашим близким крепкого здоровья, благополучия и мирного неба над головой!

С Днем Великой Победы!

Уважаемый Александр Яковлевич!

Поздравляю Вас с 9 мая!

Победа нашей страны над фашизмом весной 1945 года – яркий символ несгибаемой воли и духовного величия советского народа. День Победы стал для всех нас особым, поистине всенародным праздником.

Память о той великой войне и беспримерном подвиге наших воинов передается из поколения в поколение, мы преклоняемся перед доблестью и силой духа защитников Отечества и тружеников тыла. 9 мая навсегда останется для нас днем памяти их бессмертной славы.

Позвольте в этот праздничный день пожелать Вам здоровья, благополучия, мира и добра!

Дорогие коллеги !

Поздравляю вас с великим праздником — Днём Победы!

9 Мая — это не просто дата в календаре, это символ мужества, стойкости и безграничной любви к Родине. Мы склоняем головы перед подвигом тех, кто отстоял свободу и независимость нашей страны, кто ценой невероятных усилий и жертв подарил нам мирное небо над головой.

Сегодня, в юбилейный, 80-ый День Победы наш долг — помнить и чтить героев, передавать эту память следующим поколениям, воспитывать в молодёжи уважение к истории и гордость за свою страну. Подвиг предков остаётся примером исключительного народного единства. Победа над фашизмом была основана на силе духа, патриотизме и лидерстве в научно-техническом прогрессе.

Пусть этот праздник напомнит нам о важности мира, согласия и взаимопонимания. Желаю всем здоровья, счастья и благополучия, успехов в учебе и науке!

С Днём Победы!

Уважаемые коллеги!

От коллектива университета поздравляю Вас с 80-летием Победы нашего народа в Великой Отечественной войне!

С первых дней войны сотни тысяч наших соотечественников уходили добровольцами на фронт, чтобы вместе со всем народом противостоять фашистскому нашествию, освободить мирное население и изгнать врага с территории нашей страны.

В этот торжественный день мы отдаём дань глубокого уважения и благодарности каждому, кто воевал на передовой и трудился в тылу. Наша задача – сохранить память о подвиге советских воинов, которые ценой своей жизни отстаивали независимость нашей Родины и показали всему миру величие духа русского народа, пример мужества и самоотверженности для новых поколений.

Желаю Вам крепкого здоровья, неисчерпаемых жизненных сил, мира, добра и уверенности в завтрашнем дне.

1945-2025

Уважаемые коллеги!

Примите мои искренние поздравления
с 80-летием Победы в Великой Отечественной войне!

Мы преклоняемся перед ратным и трудовым подвигом советского народа. 9 Мая — священный день для России, для каждого из нас. Этот праздник великой радости объединяет все национальности и все поколения, придает силы для укрепления могущества нашей страны. От всей души желаю Вам мирного неба и благополучия!

С Днём Победы!

Ректор Южно-Уральского
государственного университета

А.Р. Вагнер

С 80-летием Победы!

9 мая навсегда останется в наших сердцах как символ мужества, стойкости и героизма советского народа. Вспоминая те тяжелые годы, мы отдаем дань уважения всем тем, кто сражался на фронте и трудился в тылу. Их подвиги и самоотверженность стали основой для свободы и независимости Отечества. Их героизм и стойкость – пример для нашего поколения, которому вновь выпала нелёгкая, но почётная, миссия по защите страны от разрушающего влияния врага.

С каждым годом свидетелей страшных и героических событий Великой Отечественной войны всё меньше. Мы обязаны сохранить историческую память и не допустить ее фальсификации и забвения.

В этот праздничный день желаю нашей стране, народу и сегодня победы в борьбе за справедливость и достойную жизнь, победы в Специальной военной операции! Россия всегда была и будет сильной и процветающей страной!

Желаю крепкого здоровья и мирного неба над головой. Пусть в наших сердцах всегда живет светлая память о Победе, а в домах царит тепло, любовь и счастье.

С праздником! Мы помним! Мы гордимся!
