

The Meeting with an Expert: DonNTU Strengthens its Cooperation with MGIMO in Discussion of Topical Issues

There was a meeting with Mr. Markedonov at DonNTU on November 7th. He is one of the key Russian experts in international affairs, the key researcher of the Institute of International Affairs of MGIMO of the Ministry of Foreign Affairs of Russia, a famous analytics, the chief editor of the journal “International Analytics”, and a member of the Academic Council under the RF Security Council. The event was moderated by DonNTU’s Rector Prof.

Photo: DonNTU’s Site

Anoprienko. It gathered students and academics of the Engineering and Economic

Faculty interested in discussing the modern political agenda and prospects of Russian policy in the post-Soviet space.

Young professionals from MGIMO M. Tsarev and A. Baranov were also present there. Both are active participants of the project “Russia’s Policy in the Post-Soviet Space” under the supervision of Mr. Markedonov. It is aimed at integration of young people into the research in the most significant aspects of Russia’s foreign policy.

Prof. Anoprienko thanked the visitors and emphasized the importance of the visits for strengthening the interaction between the universities, helping experience exchange and communicating of DonNTU’s students with the key Russian professionals. He also stressed that DonNTU would go on developing cooperation with MGIMO to support scientific and educational initiatives important for both the university and the region.

The Presentation of the Unique Equipment to Implement High Quality Teaching and Research

The delivery of the special equipment to implement high quality teaching and research took place in the frameworks of the tripartite agreement among Donetsk National Technical University, Chuvash State University named after Ulyanov, and the Company “Cheboksary Power Device Plant” (CPDP). It is the unique tester to study digital systems of relaying and emergency automation. The model of the power system node with the motor

Photo: DonNTU’s Site

load with modern microprocessor terminals is realized in the panel. It is

aimed at teaching students and professionals the principles of work with the digital terminals of the series.

The presentation of the unique equipment took place at DonNTU on November 6th.

DonNTU’s Rector Prof. Anoprienko, the Vice-Rector A. Ryazanov, the Dean Dr. Shlepnev and the staff were present there.

Photo: DonNTU's Site

The Head of the Department of Power Stations Dr. Tkachenko demonstrated the work of the tester, spoke about its technical characteristics and the unique features.

Dr. Shlepnev mentioned that the CPDP was going to have an order for the professionals trained at DonNTU.

Prof. Anoprienko said that there were results of the interaction of DonNTU with Cheboksary cluster and the university had an

access to the latest Russian equipment.

DonNTU's administration expressed their gratitude to the Deputy of the State Council of the Chuvash Republic the Director of CPDP Mr. Koltsov and the Head of the Resource Centre Ms. Obidova for their assistance in delivery of the unique equipment.

DonNTU's Team Headed by the Rector Takes Part in the Seminar-Meeting "University Strategic Development: Financial Model Transformation"

Kabardino-Balkarski University (Nalchik) hosted the seminar-meeting of the Ministry of Science and University Education of the Russian Federation "University Strategic Development: Financial Model Transformation" on November 14th. Representatives of more than 40 universities of the South of Russia (Rectors, Vice-Rectors and Financial Boards Heads) took part in the event. It was the fifth, final one in the series of the analogous seminars organized by the Ministry of Education and Science of the Russian Federation for all Russian universities. The speakers were the Ministry's heads, the heads of financial blocks of banks and oil and gas companies. The main goal of the seminar-meeting was to form the common concept of the university financial model transformation in the framework of its development strategy.

Photo: DonNTU's Site

There were three blocks at the seminar: the plenary panel discussion, the plenary expert session and the university teams' work. The participants were greeted by the government of the Kabardino-Balkarskaya Republic and the University's Rector.

Photo: DonNTU's Site

The representatives of the Ministry of Science and University Education made the key presentations. They noted the following: "It is important to understand what the funds are allocated for and what results they will bring. Financial decisions must be based on analytics. Financiers must go deep into the process, but not just calculate the budget. The analytical function should be developed, and the strategic control is also important."

The issues of innovation partnership of industrial partners with universities, the financial function digital transformation, and the role of business models in the university cost creation were discussed in the framework of the plenary expert session.

The analysis of the university current financial model: the key parameters of the model, possible breaks between customer's key demands and university offers, between understanding of customer's demand and university resources, between the university strategic and financial model, and between the zones of strategic and financial responsibility was made during the teams' work. The analysis of the responsibility zones of the Rector, the strategist and the financier was also made.

The matrix "Financial Result per One Staff Member – the Financial Management Rating" was built for each university. The analysis emphasized such strong features of DonNTU as financial management high quality, stable tendency to better income over the expenses which is the necessary condition for the university development.

The results of the strategic session will help improve educational, scientific, financial and economic activity of our university.

DonNTU Signs the Cooperation Agreement with the Regional Headquarters of Russian Students' Teams

The ceremony of signing the cooperation agreement with the Regional Headquarters of the Russian Students' Teams by DonNTU's Rector Prof. Anoprienko and the Commander of the Headquarters Ms Kulgina has taken place at DonNTU. DonNTU was also represented by Dr. Ryazanov, Ms. Yurkova, Deans, Ms. Panasenko, and representatives of DonNTU students'

Photo: DonNTU's Site

teams.

Ms. Kulgina spoke about the tasks and areas of students' teams work: pedagogic, construction, service, medicine, train guards and the key events of the organization.

Dr. Ryazanov informed on the intention to send our students' teams to companies where they can combine summer practice with their paid work.

The commander emphasized that the current movement is the legal successor of the Soviet students' construction teams and gave the special clothes to DonNTU's Rector. The memorable photo was taken.

DonNTU Signs New Cooperation Agreements

As a result of negotiations between DonNTU and Belgorod State Technical University and DonNTU and Krasnoyarsk State Agrarian University cooperation agreements were coordinated and signed.

It opens new horizons for joint research, experience exchange and new programs implementation. DonNTU intends to use the chance to strengthen its positions in the sphere of science and education and to make its contribution into the renewal and development of the regional scientific and technical potential.

The VII International Scientific and Practical Students' Conference "The World Economics: Yesterday, Today, and Tomorrow" at DonNTU

DonNTU hosted the VII International Scientific and Practical Students' Conference "The World Economics: Yesterday, Today, and Tomorrow" on November 5th. . This online event was

organized by Donetsk National Technical University, the Institute of Economic Research, Donetsk Small Academy of Science, Novgorod State University named after Y. Mudri, Abkhasia State University, South-Ossetian State University named after A. Tibilov, and Donskoi State University. There were 100 representatives of educational institutions from the Russian Federation, Belarus, the Transdniestrian Moldavian Republic, the Republic of Abkhasia.

The event was timed at the 300th anniversary of Russian Academy of Science, the 55th anniversary of the Institute of Economic Research and the 55th anniversary of Economic and Engineering Faculty of DonNTU.

The conference was aimed at giving young researchers a chance to show their work results and exchange their opinions on the world economy problems.

The participants were greeted by the university administration members and the staff. Dr. Shavkun was the event moderator.

The results of the research in influence of the sanctions on international economic relations and economic cooperation among countries, application of digital tools to develop international business, influence of cultural differences on business communications, population aging and its consequences for the world economy etc were discussed.

The materials will be published in the proceedings which will be placed in the e-archive of DonNTU and in the RSCI database.

The participants who made their presentations at the conference got their diplomas and certificates.

DonNTU Hosts XXIV All-Russian Scientific and Technical Conference “Mining Power Mechanics and Automation”

On October 29-31st DonNTU hosted the XXIV All-Russian Scientific and Technical Conference “Mining Power Mechanics and Automation”. The event was organized in both online and off line formats. There were 27 researchers and Master’s students from DonNTU, Vorkuta branch of Ukhta State Technical University, Lugansk State University named after V. Dal, and Donbass National Academy of Construction and Architecture (Makeevka) at the conference.

Photo: DonNTU's Site

The conference proceedings will be published soon.

DonNTU's Academic Takes Part in Book Exhibitions

The Central Exhibition Complex “Expocentre” (Moscow) hosted the 37th Moscow International Book Fair on September 4-8th. It was the Russia’s largest book event with international participation.

The Fair was organized in the frameworks of the Family Year in the RF under the support of the Ministry of Digital Development and Mass Communications of the Russian Federation, the Department of Media and Advertising of Moscow, and the Russian Book Union.

Photo: The Internet Source

There were more than 30 000 visitors from Azerbaijan, Belarus, Germany, Iran, China, and Kazakhstan at the Fair. More than 200 events such as meetings with writers, book presentations, conferences, discussions and master-classes were organized.

Dr. Korchevski was among the participants. His books “Ecology of the Branch Production”, and “Flotation Methods of Minerals Concentration” with E. Nazimko, V. Naumenko, and N. Zvyagintseva being his co-authors were presented at the stand of the Academy of Natural Sciences and included into the exhibition annotated catalogue. This proves high significance

of Dr. Korchevski’s contribution into the science and education development.

There also was the Book Exhibition at the Tüyap Fair Convention and Congress Center (Istanbul) on November 2-10th. Dr. Korchevski was among the participants.

Istanbul Book Fair 2024 is one of the largest and most significant book events of the year. It has been organized since 1982 and annually attracts about half a million visitors.

Dr. Korchevski’s books annotations were included into the catalogue of the exhibition which speaks of the topicality and scientific and pedagogic importance of his books.

DonNTU Takes Part in the Seminar “Mechatronics”

On November 13th Donesk hosted the seminar organized by the Company “Mechatronics” (St. Petersburg), which is a part the Russian Company “System Electric”, one of the key makers of electric and technical products in the Russian Federation.

The Company “Mechatronics” develops and makes relaying and automation devices and boxes and constantly works at mechatronic component base localization to guarantee users their independence on import limitations.

Workers of power companies of new regions of Russia took part in the seminar. DonNTU was represented by Dr. Tkachenko, Dr. Polkovnichenko, and Dr. Bulgakov.

The staff members of the Company “Mechatronics” told the participants about the company’s history and showed the main samples of the products they make (including their software), and presented the Company’s training centre.

The representatives of DonNTU and the Company “Mechatronics” discussed the possibility of the mutually beneficial cooperation and signing the agreement. The Scientific and Technical Centre of the Company gave the Faculty of Intellectual Electric Power and Robotics a modern device BMP3-150 which can be used in the training process.

DonNTU Takes Part in the XLVI International Scientific and Technical Conference “Electric System Cybernetics”

There was the opening ceremony of the XLVI International Scientific and Technical Conference “Electric System Cybernetic” devoted to the 115th anniversary of Professor Drozdov at South-Russian State Polytechnic University named after M. Platov on November 19th.

DonNTU was represented by Dr. Tkachenko, Senior Lecturer A. Sergienko, and the postgraduate student A. Khapchenkov. They made their presentations there.

Knowledge and opinions exchange between the conference participants and organizers helps develop science at universities and training high quality personnel.

DonNTU Takes Part in the XI All-Russian Seminar on Training Professionals in Information Security

Moscow hosted the XI All-Russian seminar on training professionals in information security “Training Professionals in Unmanned Aviation Systems Security” on November 21-22nd. It was organized by the Company

Photo: DonnTU’s Site

“InfoTECHS” and the Federal Academic and Methodological Board in the System of University and Professional Education. The Seminar covered such issues as development and making of unmanned aviation systems; protection mechanisms and contours; cyber security of the unmanned aviation systems; piloting, control and maintenance; application; core programs of university education, advanced courses, teachers

Photo: DonNTU’s Site

internship, students’ competition. DonNTU’s Vice-Rector I. Shcherbov and the student N. Korenev took part in the seminar.

DonNTU’s Vice-Rector I. Shcherbov and the student N. Korenev took part in the seminar.

DonNTU Gets Greetings from Partner Universities on the Day of People’s Unity

Уважаемый Александр Яковлевич!

От имени коллектива Университета науки и технологий МИСИС и себя лично поздравляю Вас с Днём народного единства!
4 ноября – особая дата в многовековой летописи нашей Родины, символ сплоченности, самоотверженности, твердости духа великого народа. Сегодня во многом в основе благополучия страны – приверженность традициям, единение, уважение к историческому наследию, подлинный патриотизм.
Желаю Вам крепкого здоровья, претворения в жизнь всех намеченных планов, новых свершений на благо Отчизны!

С уважением,
ректор НИТУ МИСИС
А. А. Черникова

МИНИСТЕРСТВО НАУКИ И ВЫСШЕГО ОБРАЗОВАНИЯ РОССИЙСКОЙ ФЕДЕРАЦИИ
федеральное государственное бюджетное образовательное учреждение высшего образования
«МОСКОВСКИЙ АВТОМОБИЛЬНО-ДОРОЖНЫЙ ГОСУДАРСТВЕННЫЙ
ТЕХНИЧЕСКИЙ УНИВЕРСИТЕТ (МАДИ)»

Уважаемые коллеги!

От имени всего коллектива Московского автомобильно-дорожного университета (МАДИ) и от себя лично сердечно поздравляю Вас с Днём народного единства!

Этот праздник олицетворяет собой непоколебимый дух единства и сплоченности нашего народа, который на протяжении веков преодолевал трудности, опираясь на свою богатую историю и величие.

В современном мире, полном вызовов и испытаний, единение нашего народа остается ключевым фактором для достижения успеха и процветания России.

Желаю Вам крепкого здоровья, благополучия и успехов в Вашей работе на благо нашей страны.

С уважением,

Ректор

А.И. Ажгиревич

The Day of People’s Unity is an important state holiday, which is celebrated in Russia on November 4th. It was founded in 1612 to honour the liberation of Moscow from Polish invaders. This day is also timed to the Day of Mother of God Kazan icon which is of great significance for the Orthodox world.

Our university staff and students got a lot of greetings from our partners in the Russian Federation. It proves the importance of our unity and cooperation to develop our country.

It reminds us how important it is for our people to achieve common goals. It is the day when we can recollect our history and be proud of our achievements.

Greetings with the Day of Academics

The Day of Academics is celebrated in Russia on November 19th. The date has been chosen with purpose. That day 310 years ago M.V. Lomonosov, the outstanding scientist, pedagogue, and the founder of Moscow University, was born. His work was the basis of university education in our country.

This day is not only a demonstration of respect of academics’ work but also a reminder of its importance in bringing up future professionals and citizens. Academics not only pass their knowledge to students but also inspire them for new achievements and help develop critical thinking and form the personality of the young elite.

Our staff got a lot of greetings from our partners from the Russian Federation. These warm words are the sign of support and recognition of the work of our academics by the pedagogic community. They emphasize the importance of cooperation in the sphere of education which helps exchange experience and introduce innovation approaches in training.

DonNTU’s Teams Are Successful in Passing the First Stage of the Program “Accelerator 2.10”

The program “Accelerator 2.10” which supports more than 60 project teams of Chernozemie, the Lugansk and Donetsk People’s Republic in the markets of “Technet” and “Foodnets” started at Belgorod State Technological University named after V. Shukhov on September 20th.

Donetsk National Technical University was represented by the teams of the Faculties of Computer Information Technologies and Automation and Engineering and Economic, (with Ms. Alexeeva being their supervisor), and the Faculty of Integrated and Mechatronic Work (with Dr. Kladchenko being the supervisor).

The teams defended their projects at the “Expert Tube 1.0” and passed the first stage of the acceleration program getting the feedback from the experts.

The second stage will include the detailed work of the startups. The participants will attend a number of webinars on product selling, marketing and economic calculations.

DonNTU's Student Ranks Third in the Contest Open OS Challenge 2024

The Centre for Development of Innovation Technologies "IT Planets" and the Russian software developer SberTech were the organizers of Open OS Challenge 2024.

The participants demonstrated their knowledge and skills, became a part of developers' professional community, and fought for different prizes and the main one – a trip to China on August 15-October 24th.

Professional engineers and programmers using free software for their routine work and newcomers in IT sphere not younger than 18 years old, students and postgraduates as well as academics studying system programming and administrating of open operating systems based on Linux took part in it. The contestants got the access to webinars and the chance to join the team of SberTech in their region.

DonNTU's student K. Bezugli was the participant of the contest which took place in Moscow in October 26-27th.

He was its finalist and ranked third. In December he will visit China to be a participant of the largest world event – Open Source, the conference of developers of Open Atom.

DonNTU's Student is a Participant of the All Russian Forum of Young Researchers "Pole"

DonNTU's Student S Miroshnichenko has taken part in the All Russian Forum of Young Researchers "Pole" organized by Rosmolodezh.

The team, whose member was the student, developed the news passer with the fake check. The project made a positive impression on the customer from the special economic zone "Alabuga".

There also were the meetings with professionals working in different spheres: Mr. Marchenkov, the Head of the Coordination Board of Young Researchers of Russia, the representatives of Izhevsk Radio Plant who paid a great interest to the graduates of DonNTU.

Our student was impressed by the education level in Arkhangelsk and the unique climate of the city. The Forum was an important step in our student's further career.

Photo: DonNTU's Site

DonNTU's Students Take Part in the International Youth Forum "The Dialogue of the Future" in Minsk

DonNTU's students D. Dyachenko and D. Panasenko took part in the International Youth Forum "The Dialogue of the Future" in Minsk on November 12-13th. It was aimed at creation of the single platform to exchange experience and introduce innovation ideas in the sphere of youth entrepreneurship. There were 300 participants in the event. They were representatives of public authority, key Russian and Belarusian business, mass media and students.

The participants and speakers discussed the foreign policy, youth social mission, development of entrepreneurship and IT sphere and interaction with the mass media during the round table meetings.

There were a lot of honoured guests from the RF and the DPR at the event.

Photo: DonNTU's Site

DonNTU's Postgraduate Student Takes Part in the Program "Modern Methods of Robotics and Control Theory" at "Sirius" University

"Sirius" University hosted the program "Modern Methods of Robotics and Control Theory" on November 11-16th. DonNTU's postgraduate student M. Skladchikov took part in it. He got valuable experience, opened new horizons of modern technologies for him, saw how artificial intelligence and robotics form the future and how to use the knowledge in practice. Talented teachers inspired them to create their own developments, taught them how to use theoretical knowledge in real projects. All program participants had their common interest, solved different tasks successfully. There were a lot of impressions: worrying before you start doing a complex task and excitement when you understand how to use the control theory in reality. The program opened the doors into the world of high technologies.

Photo: DonNTU's Site

DonNTU's Student Takes Part in the Program "More than Just a Travelling"

DonNTU's student A. Yakovchenko has taken part in the program "More than Just a Travelling" created by "Russia is the Country of Opportunities" under the support of Rosmolodezh, Russian society "Znanie", and the Ministry of Science and University Education of the Russian Federation. It was established to encourage participants and winners of different Olympiads and contests. The winners get certificates to travel around the country.

Our student and other tour participants representing Donbas demobilized young people under the age of 35 visited Caucasus on November 6-11th. They visited thermal sources "Caucasus Pearl", an ancient Christian Cathedral Shoanin, were on the cable railroad, had lunch at the height of 3008 m above the sea, had their excursion to Teberda National Park and the Zoo, saw Lakes Karakel and Tumandy-Kel. They stayed at the hotel "The Dombai" which rooms were comfortable and food tasty. He was especially impressed by the sight of the Caucasian Mountains.

Photo: DonNTU's Site

DonNTU's Student is a Finalist of the Contest "Dreamer's Index"

The contest "Dreamer's Index" of the presidential platform "Russia is the Country of Opportunities" was summed up on November 18th.

Top 200 rating leaders were announced. Our student D. Matlakhov was among them.

Photo: DonNTU's Site

The contest was organized in the frameworks of the federal project “Social Lifts for Everyone” of the national project “Education” and was aimed at implementation of the personal professional potential of young people. More than 24 000 people from 89 regions of Russia and abroad submitted their applications. They studied, did their research, fulfilled practical tasks and implemented their ideas and dreams. There are

a lot of possibilities to implement talents in Russia, but everybody has their own success story. Come on, go ahead!

DonNTU's Student Takes Part in the Forum of Young Diplomats “Mercury -2024”

Mariupol State University named after A. Kuindzhi hosted the Forum of Young Diplomats “Mercury-2024” on November 19-21st. More than 100 students from 5 Russian Regions took part in it. DonNTU was represented by the student A. Yakovchenko.

The delegates were greeted by the Deputy Minister of Foreign Affairs of the RF Mr. Ivanov, the Head of the DPR Mr. Pushilin, the Director of the Department of Information and Press of the Ministry of Foreign Affairs Ms. Zakharova and others. Lectures on international relations, specific features of foreign policy work, relations between Russia and the European Union and cultural interaction were delivered in the framework of the Forum.

The speakers were heads of departments of the Ministry of Foreign Affairs of the RF, members of the Committee of the Federation Council on Foreign Affairs, academics from MGIMO, St. Petersburg State University and others.

A. Yakovchenko made the final of the Forum bright by reading his own patriotic verse “Pride and Banner”.

Photo: DonNTU's Site

DonNTU's Students Take Part in the XXIII International Scientific and Practical Conference “Design, Application and Security of Information Systems under the Digital Economics”

Rostov State Economic University hosted the XXIII International Scientific and Practical Conference “Design, Application and Security of Information Systems under the Digital Economics” on November 21st. DonNTU's students V. Ageeva and I. Eryomin took part in it and made their presentations “Training Professionals in Pilotless Vehicles” and “Means to Analyze DonNTU's Information Infrastructure Security”.

The Newsletter was prepared by the Department of Foreign Activity and Interuniversity Cooperation of DonNTU (including the materials of the newspaper “Donetsk Polytechnic”).
